

# Replenishment ship MAIN A 515

## Measurements and propulsion

- 100,6 m (330,1 ft) length
- 15,8 m (51,8 ft) beam
- 4,05 m (13,3 ft) draught
- 3.600 t displacement
- 1 × diesel engine
- 2.450 kW (3.300 hp) total power output
- 1 propeller + tunnel thruster
- speed: more than 14 knots

## Complement and other

- 68 sailors, including 30 specialists for maintenance at sea
- flight deck
- infirmary
- stationary decompression chamber
- charging station for submarines
- function as lead ship possible

## Sensors and armament

- navigation radar
- sonar
- autocannon 27 mm (1,06 in) MLG
- heavy machine gun 12,7 mm (0,50 in)

## Supply capacity

- ca. 150 m<sup>3</sup> fresh water
- ca. 476 m<sup>3</sup> diesel fuel
- catering 27 t
- ammunition 152 t

## Disposal capacity

- 5 t waste
- 180 m<sup>3</sup> wastewater
- 32 m<sup>3</sup> waste oil
