Course announcement for the Nordic Defence Cooperation (NORDEFKO) – Residential Practical and Functional-Oriented United Nations Logistic (UNLOG) Course in Entebbe, Uganda – 14 August to 18 August 2023.

1 Background

The activity within international peacekeeping operations requests a higher level of education and preparation of the officers who will take part in the operations. NORDEFKO has for many years hosted courses for staff officers, logistics officers, military observers and military police. These courses and trainings are part of the NORDEFKO training program.

Africa, as a region hosts many of the UNs Peacekeeping Missions with Formed Units. These missions place a great strength on African countries' military resources and require a strong national understanding of the UN logistics, and cooperation with the UN.

Norwegian Defence University College (NDUC) / Command and Staff College (CSC) / Norwegian Defence International Centre (NODEFIC) has developed a one-week UNLOG course.
