

# NODEFIC logistic training concept

The purpose of the **pre-study package** is to create a basic logistic (remembering) knowledge level before the United Nations or NATO logistics digital training or course.

The purpose of the **pre-study test** is to ensure that all participants to the digital training has the same minimum basis knowledge level.

*Basic (Remembering) level*

The purpose of the 3 days **online digital training** is to give the participants an introduction and understanding knowledge to all levels and areas of United Nations or NATO logistics.

The purpose of the **mandatory assignment** is to ensure that all participants has achieved United Nations or NATO logistics (understanding) knowledge to be able to develop specific logistic tasks.

*Understanding level*

The purpose of the 6 days **practical and functional-oriented training** is to give the participants and applying level of knowledge to all levels and areas of United Nations or NATO logistics.

*Applying level*
